Ohio Pastor uses EvangeCube to present the gospel in Calcutta, India

Pastor Danny Griffin, Urbancrest Baptist Church, Lebanon, shared about his recent trip to India. After spending three hours training 18 young men on the basics of leadership and how to use the Evangecube the group immediately went into action. In a Hindu children's outreach program where weekly approximately 140 Hindi kids come to listen to Bible stories, Pastor Danny shared for nearly an hour. The children did not want him to stop and many came to know Christ.

Kishore Pandagade, Professor of a Bengal ministry school has an extensive ministry to the islands south of Calcutta. No other ministries are present at this time in this area. The people are receptive. Kishore is busy training 20 people to cover the 50 islands that make up the region of his ministry area. Much of the area is not reachable by car so Urbancrest Baptist Church purchased a motorcycle to assist this man in his ministry.

While in India, one Sunday, Pastor Griffin had the opportunity to preach in William Carey Church named for the first modern missionary. He was invited into the home of a Brahman, which is a very rare privilege. During his trip to India, many people indicated they had accepted the Christ about whom Pastor Danny shared.
